

## **Senior Game Designer / Producer** (Casino Games)

Do you want creating innovative and visually stunning games that will shake up the casino industry? Our Stockholm Game Studio is looking for an experienced Software Developer who is passionate about gaming and enjoys the challenge of working in a dynamic and fast-paced environment.

Our goal here on Fantasma is formost to create wonderful workplace where we together can laugh, thrive and spend our days deepening our passion for gaming. And in doing so we deliver awe inspiring games to millions of people all over the world!

Do you want to help us?

### **Senior Game Designer / Producer at Fantasma**

As a Fantasma Game Designer / Producer you will be placed in the vanguard to revolutionise the Online Casino Industry! Together with our talented team you will get the opportunity to learn new technologies and skills, as well as our support in honing your current abilities to perfection.

You need to have a open, playful and inquisitive mind, ready for all the challenges of the evolving casino landscape. We are a small studio with tight bonds and big dreams.

This means that everyone in the team is invaluable asset whose opinions matter and help shape the future of our projects.

## Who are you?

A creative and resourceful individual who want to be more than a faceless cog in a machine. You are adaptive and face challenges and adversities with a smile. You communicate well and is and is not afraid to voice your good ideas. You make positive contributions so that ours is a workplace where everyone is happy and feel they belong. You want to work with people that like yourself take pride in and truly care about the games we are creating together.

## Your assignments:

- Design and own game features targeting improvement of KPIs
  - Guide art development for features and systems
    - Design and tune slot machines
- Provide input into prioritization of game features and bug fixes
  - Analyze features post-release to measure effects
- Working with offsite teams as a design resource and consult
- Work closely with fellow Game Designers, Product Managers, Artists, and Engineers

## **We are looking for you with:**

- 5+ years of game design experience
- 6+ shipped casino titles for either for-wager or social gaming
  - Keen eye for visual polish and detail
  - Strong math, statistics, and excel skills
  - Strong written communication skills
- Desire to dive into slot machine design and come up with innovative mechanics
- Solid sense of humor, passion for your work and desire to grow yourself and those around you

## **We also value**

- Knowledge in TDD and automated testing techniques
- Any other creative skill, from sound design to 3D modelling
  - Linguistic skills beyond Swedish and English
  - Avid gamer and mobile app enthusiast
  - Experience supporting live games
- Experience in social games, especially slots and/or casino genres
